* – Minor ^o – Certificate ^ – Secondary Education Majors count towards 2 categories EXS – Exercise and Sport Science
TESOL – Teaching English to Speakers Other Language

To build your Holokai, you will need to choose one program as your major and two programs from different categories as your minors and/or certificates. All the choices for your Holokai should be located in separate columns and separate rows.

Once you have decided your Holokai, contact your Academic Advisor below to make an appointment to create your MAP (Major Academic Plan).

A degree from BYU–Hawaii is made up of four kinds of classes: core classes, classes from the Arts & Humanities category, classes from the Math & Sciences category, and classes from the Professional Studies category. When first choosing classes for their freshman semester, students are encouraged to explore the 3 different programs by taking introductory classes from each category. In the end, students will have completed one major program and two minor and/or certificate programs, each from a different category and from a different department, in order to earn a degree.

Graduating from

BYU–HAWAII

is as easy as 1,2,3,4

1

MAJOR

Choose 1 major from either Arts & Humanities, Math & Science, or Professional Studies.

2

MINORS OR CERTIFICATES

Choose 2 minors and/or certificates one from each of the two remaining areas.

3

SEMESTER

Attend 3 Semesters each year- Fall, Winter & Spring. Then enjoy a summer vacation during July and August.

4

YEARS

Complete all graduation requirements: Core, Major & Minors in your 4 year allotment.
